General Description

Codeflex Fine Spray Sprinkler hose has been developed as a useful addition to our wide range of water hoses and will satisfy the demands of both private consumer and professional grower alike. Fine Spray is manufactured from high quality PVC material and is fitted with universal quick release adaptor for ease of integration with your existing water system. Fine Spray Hose will sprinkle or soak depending on which side is uppermost. Soaking position is more water consumption efficient due to reduced evaporation rate and is silent in use. In addition we have a deluxe version, complete with cassette (12m) for ease of storage.
