

EVERFLOW® EVF Series

Kinks and knots are no longer an issue with Everflow®, the world's first truly unstopable garden hose.

Endorsed by the RHS (Royal Horticultural Society), it was developed to incorporate patented Evercore® flow protection, that ensures water pressure cannot be lost despite kinks, knots and crushing.

Available to stock – Everflow has been designed with an impressive set of marketing materials, which includes a FSDU with integral video player.

Key Features:

- Evercore® 'Flow Protect' Technology.
- Water flow is not inhibited even when kinked, knotted or crushed.
- UV resistant.
- Made in the UK.
- Superior flexibility – ease of handling.
- Service temperature -20°C to +60°C.
- Plant Friendly - Silicone-free.
- REACH Compliant.
- 30 years guarantee.
- Manufactured in accordance with BS 3746 standards.
- RHS Everflow is fully compatible with all UK standard 1/2" hosepipe fittings.

Sizes:

Available in 25m, 50m & 100m coil
