

Stephen Walton  
Operations Director

**Copely Developments Ltd**

Thurmaston Lane  
Thurmaston  
Leicester  
LE4 9HUS

Date: 3rd August 2023

**RE: Per- and PolyFluoroAlkyl Substances (PFAS)**

Dear Steve

These are synthetic chemicals that are widely used throughout society and found in the environment. Health and environmental concerns have led to many being controlled as Persistent Organic Pollutants under regulation EU 2019/1021.

I confirm that the grades of PVC supplied To Copely Developments **do not** contain any PFAS as formulation ingredients.

I hope this information is useful.

Yours sincerely

**P Mullen** MSc  
Medical Technical & Regulatory Manager  
INEOS Compounds Aycliffe Limited
